

MANUFACTURING & SUSTAINABILITY: PROTECTING THE ENVIRONMENT FOR THE FUTURE

THURSDAY, FEBRUARY 11, 2021

2月11日 (木) | 2:00PM EST VIA ZOOM

Griffin-Spalding County is now home to a growing number of Japanese manufacturing companies thanks to the development of Georgia's first eco-mixed-use park, The Lakes at Green Valley. Two of the first companies to come to the park, Otsuka Chemical America & Toppan USA, have committed to sustainability & protecting the environment through its production of materials, supply chain & facility management. Join us for this webinar for a behind-the-scenes glimpse into how activities & operational processes promoting sustainability can lead to positive impacts to your business & community.
